

# Work with Family Accounts - Children

Last Modified on 04/08/2024 1:28 pm EDT

The **Family Account** page is organized into two sections (Children and **Contacts**) with five tabs (Details, **Billing, Transactions, and Invoices**, and Audit Log). You can have unlimited children in a Family Account profile.

The **Children** section, which can be expanded or collapsed, shows profile cards for each child.

Access the Family Account from **Family Accounts** (left menu) > **Profiles** card > **View All # Family Accounts** link, or use the Search box at the top of any page in the system. The children in the family are listed in the top section.
