

# Medical & Compliance

Last Modified on 04/12/2024 3:33 pm EDT

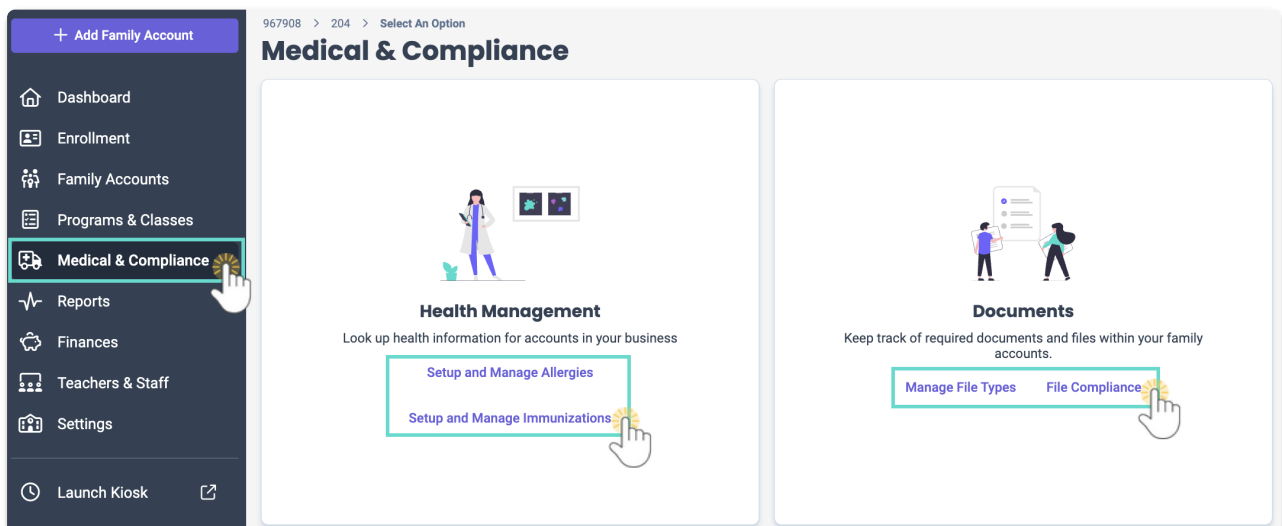

Most states require your business to keep up-to-date child health records. Jackrabbit Care is committed to supporting your business with our robust allergy, immunization, and document tracking system.

☀️ Allergy symptoms, treatment, and contact information are quickly available on a child's Details page and on the Teacher Dashboard.

☀️ Record children's immunization status by type and dose.

☀️ Create File Types for required documents and add them to the Online Registration form.

To manage health information and documents in your system, go to the left menu and select **Medical & Compliance** and then one of the many links on the Health Management or Documents card, or select **Reports** to access all reports related to Medical & Compliance.

## Allergy Management

In the role of Owner or Administrator, you have the permissions to set up and manage the allergy list for your business.

- Allergens added to the list are available immediately and can be assigned to a child at any location within your business.
- Ten of the most common allergens are pre-loaded into the Care system.
- There is no limit to the number of Allergy items that can be added.
- Allergies can be added to a child's details at any time.

→ Learn how to [Add, Manage & View Allergies](#)

Although Teachers are not authorized to add or manage allergies, they do play a key role in understanding how to access a child's details and help in the event a child has an allergic reaction.

→ Learn how a [Teacher](#) accesses a child's allergy and treatment details.

## Immunization Management

In the role of Owner or Administrator, you have the permissions to set up and manage the immunizations for your business.

- Ensure each child's medical paperwork is up to date.
- View, manage, and add immunizations.
- Thirteen of the most common immunizations have been pre-loaded.

→ Learn how to [Setup & Manage Immunizations](#).

## Files/Documents

Select the **Manage File Types** link to open the **Manage File Type** page and edit or add the documents for your organization. Files may include immunization records, birth certificates, and additional documents you require for the children in your care. These documents, when required, can be added to the Online Registration form when parents sign up online.

In addition, the grid on the **Compliance** tab lets you see the list of files, who uploaded them, and expiration dates when set.

→ Learn how to add files to the [Online Registration form](#).

To see all Medical & Compliance reports, go to **Reports** (left menu) > the **Real Time Reports** card, and click the **Medical & Compliance** link. Here, you can:

## Reports

- See all children with allergies in the Allergy Overview tab when you [Add, Manage, and View Allergies](#)
  - Go to [Create & Manage Document File Types](#)
  - Go to the [Setup & Manage Immunizations](#) overview.
- 

Help is just a few clicks away! Go to [Jackrabbit Care Support - Resource Center](#) to select the help option that works best for you.
