

Messaging to the CircleTime Mobile App

Last Modified on 04/30/2024 12:18 pm EDT

The **CircleTime™ Mobile App** promotes communication between administrators/staff and parents. Messages can be sent from the center using Jackrabbit Care to families using the app as Broadcasts (one-way messaging from the center) or two-way messaging (between staff and families). Plus, you have the added bonus of sending information directly to a parent's mobile phone, proven to be one of the best ways to communicate effectively.

- Send special announcements that affect all sites and families.
- Allow parents to communicate directly with their child's teacher or other staff members.
- Encourage staff to share messages, photos, and videos with families.
- Keep parents in the loop about what's happening at the childcare facility.

Messaging from Jackrabbit Care to parents using the CircleTime app is included in your monthly fee.

Messages, photos, and videos sent to families are available to view in both the CircleTime mobile app and Jackrabbit Care and are never deleted.
