

Messaging to the CircleTime Mobile App

Last Modified on 12/10/2024 1:39 pm EST

Messaging to CircleTime™ promotes communication between parents and team members. This feature is included in your monthly fee at no extra cost. Messages can be sent from the center using Jackrabbit Care to families using the app as Broadcasts (one-way messaging from the center) or two-way messaging (between team members and families). Use messaging to:

-  Send special announcements that affect all sites and families.
-  Allow parents to communicate directly with their child's teacher or other team members.
-  Encourage team members to share messages, photos, and videos with families.
-  Keep parents in the loop about what's happening at the childcare facility.

Team members can also send messages to families directly from their mobile devices using the [Jackrabbit Care Staff Mobile App](#).
