Setup & Manage Immunizations

Last Modified on 09/25/2024 10:27 am EDT

Immunizations play a crucial role in maintaining a healthy and safe environment for children. Immunizations are created and managed on the Immunizations page by going to **Medical & Compliance** (left menu) > **Health Management** card > **Setup and Manage Immunizations**.

- 💥 Track a child's immunization status.
- 💥 Ensure children's immunizations meet your center's requirements.
- 💥 View all children who are missing immunizations to follow up with.

The top thirteen immunizations are automatically listed in the Jackrabbit Care system for your use. These include:

Coronavirus Disease (COVID-19)	Diphtheria, tetanus, pertussis (DTaP)	Haemophilus influenzae type b (Hib)	Hepatitis A (HepA)	Hepatitis B (HepB)
Human papillomavirus (HPV)	Influenza	Measles, mumps, rubella (MMR)	Meningococcal B (MenB)	Pneumococcal conjugate (PCV)
Polio	Rotavirus (RV)	Varicella (VAR)
