

Create & Manage Custom Questions

Last Modified on 12/10/2024 1:32 pm EST

Custom Questions can be made and then added as a required step during [Online Registration](#) to help gather additional information from families to make a decision about enrollment. They are then kept on the child's file for future reference. To view Custom Questions, go to **Medical & Compliance** (left menu) > **Documents** card > **Custom Questions**. Use Custom Questions to:

-  Ask questions that are unique to your business's registration or enrollment requirements.
-  Confirm a family's eligibility based on their answers.
-  Use as a reference on a child's file.
